

Remarks

Reconsideration and allowance of the application are respectfully requested.

1. Restriction Requirement and Election

Applicants withdraw the traverse to the restriction requirement filed in the response dated June 11, 2007. Therefore, Applicants now formally elect Group III that was provisionally made during a call on December 6, 2006. This election is made without traverse.

2. Amendment to Specification

The specification has been amended to add the text in the original Claim 18 to the end of paragraph [0020]. No new matter is added.

3. Cancellation of Claims 1-15, 17 and 19-30

Non-elected Claims 1-4 and 19-30 have been canceled. Claims 15 and 17 have been canceled to obviate the rejections under 35 USC 103(a).

4. Claim 18

The Office Action states that Claim 18 is patentable over the cited prior art. Claim 18 has been amended to include all limitations in its base Claim 15 as a new independent claim. Therefore, Claim 18 as amended is now in a full condition for allowance.

4. New Dependent Claims 31-42

New dependent Claims 31-42 based on Claim 18 have been added based on the original specification. No new matter is added. Claims 31-42 are patentable due their dependence on allowed Claim 18 and based on their own merits.

5. Conclusion

Claims 18 and its dependent 31-42 are patentable and allowable. Each and every outstanding issue in this application has been fully addressed and resolved. This application is now in a full condition for allowance.

It is believed that all of the pending claims have been addressed. However, the absence of a reply to a specific issue or comment does not signify agreement with or concession of that issue or comment. Because the arguments made above may not be exhaustive, there may be reasons for patentability of any or all pending claims (or other claims) that have not been expressed. Finally, nothing in this paper should be construed as an intent to concede any issue with regard to any claim, except as specifically stated in this paper.

It is respectfully suggested for all of these reasons, that the current rejections are overcome, that none of the cited art teaches or suggests the features which are claimed, and therefore that all of these claims should be in condition for allowance. A formal notice of allowance is thus respectfully requested.

No fee for claims is believed due. This response is timely filed. Please apply any credits or additional charges to deposit account 06-1050

Respectfully submitted,

Date: September 28, 2007
